

portable FIRE EXTINGUISHERS

The Angus Fire range offers one of the most comprehensive selections of portable fire extinguishers available on the market today. All models are BSI Kitemark approved to the European Standard BS EN 3 for quality and reliability, and are backed up by the technical expertise and after-sales support you would expect from the industry leader in fire fighting technology for over two hundred years.

- Ergonomic design including wide neck rings for easy servicing and maintenance
- Full range of gas cartridge and stored pressure operated models
- High visibility colour-coded zones for instant type identification
- High specification paint finish for extra corrosion resistance
- Ideal for wide range of industrial and marine applications
- Full internet support with technical data sheets on www.angusinfo.co.uk

Speciality

Water Extinguishers

Ideal for tackling Class A fires (carbonaceous materials such as wood, paper and textiles).

- Jet nozzle provides a concentrated stream of water
- High pressure means users can attack fires from a safer distance
- Robust design makes them suitable for tough environments

| Model No | Description | Fire Rating | Dimensions mm |
|----------|-------------------------|-------------|---------------|
| W9G | 9 Litre Gas Cartridge | 13A | 552 x 190 |
| W9S | 9 Litre Stored Pressure | 13A | 584 x 190 |

Foam Extinguishers

The perfect choice for Class A and B (flammable liquids such as gasoline, oils, paints, fats) fires.

- Alcoseal FFFP multi-purpose foam with branchpipe for rapid extinction and post-fire security on hydrocarbons and polar solvents
- Tridol AFFF for rapid control and extinction of hydrocarbons
- Tridol AFFF spray foam gives wide coverage for maximum fire fighting performance
- 2 Litre model comes with transport bracket for fixing to vehicles

| Model No | Description | Fire Rating | Dimensions mm |
|----------|--|-------------|---------------|
| F9G | 9 Litre Alcoseal Gas Cartridge | 13A : 183B | 552 x 190 |
| F9S | 9 Litre Alcoseal Stored Pressure | 13A : 183B | 584 x 190 |
| T6G | 6 Litre AFFF Spray Gas Cartridge | 13A : 144B | 512 x 165 |
| T6S | 6 Litre AFFF Spray Stored Pressure | 13A : 144B | 550 x 165 |
| T9G | 9 Litre AFFF Spray Gas Cartridge | 21A : 183B | 552 x 165 |
| T9S | 9 Litre AFFF Spray Stored Pressure | 21A : 183B | 584 x 190 |
| FJ2 | 2 Litre AFFF Jet Spray Stored Pressure | 8A : 55B | 417 x 108 |
| FJ3 | 3 Litre AFFF Jet Spray Stored Pressure | 8A : 70B | 432 x 133 |

Powder Extinguishers

High performance dry powder models for rapid fire knockdown capability on wide variety of risks.

- ABC multi-purpose powder for all-round fire protection on Class A, B, and C (flammable gas) fires and also electrical equipment
- Unique extinguishing mechanism of Monnex makes it up to five times more effective than other conventional BC powders
- Extinguishers larger than 4 Kg available as either stored pressure or gas cartridge operated models
- 1 and 2 Kg models come with transport bracket for fixing to vehicles

| Model No | Description | Fire Rating | Dimensions mm |
|----------|-----------------------------|-------------|---------------|
| A1S | 1 Kg ABC Stored Pressure | 5A : 34B | 320 x 80 |
| A2S | 2 Kg ABC Stored Pressure | 13A : 70B | 364 x 108 |
| A3S | 3 Kg ABC Stored Pressure | 13A : 89B | 459 x 115 |
| A4G | 4 Kg ABC Gas Cartridge | 13A : 113B | 421 x 165 |
| A4S | 4 Kg ABC Stored Pressure | 13A : 113B | 421 x 165 |
| A6G | 6 Kg ABC Gas Cartridge | 27A : 183B | 512 x 165 |
| A6S | 6 Kg ABC Stored Pressure | 27A : 183B | 550 x 165 |
| A9G | 9 Kg ABC Gas Cartridge | 34A : 233B | 552 x 190 |
| A9S | 9 Kg ABC Stored Pressure | 34A : 233B | 584 x 190 |
| A12G | 12 Kg ABC Gas Cartridge | 34A : 233B | 584 x 190 |
| B6G | 6 Kg BC Gas Cartridge | 183B | 512 x 165 |
| B9G | 9 Kg BC Gas Cartridge | 233B | 552 x 190 |
| B12G | 12 Kg BC Gas Cartridge | 233B | 552 x 190 |
| MX9G | 9 Kg Monnex Gas Cartridge | 233B | 552 x 190 |
| MX9S | 9 Kg Monnex Stored Pressure | 233B | 584 x 190 |

Highly effective on fires involving electrical equipment as well as Class B fires.

- Clean, safe and powerful for minimal damage to property
- Available in strong lightweight aluminium alloy or steel cylinders
- Available with swivel horn (SH) or hose and horn (HH) applicators

| Model No | Description | Fire Rating | Dimensions mm |
|----------|----------------------------|-------------|---------------|
| CS2SH | 2 Kg Steel Stored Pressure | 34B | 600 x 100 |
| CA2SH | 2 Kg Alloy Stored Pressure | 34B | 615 x 102 |
| CS5HH | 5 Kg Steel Stored Pressure | 55B | 715 x 140 |
| CA5HH | 5 Kg Alloy Stored Pressure | 55B | 660 x 152 |

Our extinguishers don't stop with EN3. We also offer a comprehensive range of high performance speciality extinguishers designed to cater for all risks.

- Traditional colours
- Stainless steel
- Wide range of sizes
- Extreme environment
- Class D (metal) powder models
